

## Hurricane Preparedness Checklist for Pets

Hurricane season runs from **June 1 through November 30**, but having a plan for your pet's safety is beneficial year-round. You can use this checklist to ensure that you and your pet are ready in any emergency.

- 1. Consider these options for your pet's location during a hurricane.
  - Take your pet to a friend's or family member's house or a hotel outside the threat zone. Make arrangements ahead of time to avoid last-minute surprises and confusion.
  - Keep your pet with you in a secure, storm-prepared shelter location. Find evacuation shelters that accept pets ahead of time.
  - Leave your pet with a friend in a safe zone or make boarding arrangements with a veterinary clinic or kennel. Talk to the kennel about advance registration and requirements like shots.
- 2. Keep your pet prepared at all times.
  - Keep your pet up-to-date on their shots and maintain proper paperwork. Make sure your pet has a microchip and is wearing vaccination tags. Keep electronic and paper copies of your pet's current medical records. Maintain an up-to-date photo of your pet.
- 3. Create a disaster kit for pet supplies in case of an evacuation.
  - □ Portable carrier (large enough for the pet to stand up and turn around)
  - □ Extra leash, collar, and ID tag
  - Pet food: at least two weeks of dry food in a water-tight container or canned food (include a manual can opener)
  - □ Water: at least two weeks of clean water (large dogs need 1 gallon per day)
  - □ Up-to-date health and immunization records
  - Medications (flea and tick preventative, a two-month supply of heartworm prevention medication, all prescription medications)
  - □ Litter/newspapers for clean-up
  - □ Toys and treats
  - Towels
  - □ First-aid supplies
  - □ A recent photo of you with your pet

Take inventory of your supplies and review all records periodically so your pet can be safe and cared for during a hurricane or any disaster.
