PIRATE RADIO helped me expand my business into Key West. We have developed a great relationship. Pirate Radio was even able to broadcast live from my restaurant and had guests including actor Tom Berenger and musician Livingston Taylor!

We host the **PIRATE RADIO** Morning show live from The Hard Rock Café from time to time and also partner with them for various community good will promotions throughout the year. They are the most professional radio station to work with and I can always count on Pirate Radio to make good on every commitment they make with the Hard Rock Cafe. Pirate Radio Key West is the only local radio station the Hard Rock Café works with.

We have been working with **PIRATE RADIO** for a few months now and we could not be happier. We have worked with them to secure donations for an annual toy drive and have also broadcast live from some of our listings. They are amazing at what they do.

We've been advertising with **PIRATE RADIO** for over three years, and we enjoy listening to the station in our store every day. A couple of things that we really appreciate about our advertising partnership with Pirate Radio is the help they give us with writing and producing our commercials at no additional cost, and their station comes in great on 2 FM channels throughout the island of Key West something that can't be said for the other stations down here at the end of the road.

I've been working with **PIRATE RADIO KEY WEST** for almost 8 years and was one of the first businesses to advertise with the station when they started back in 2011. I've been advertising with the station every week ever since. I love their unique music and local programs and their morning show. They do so much for our community especially the big support they give to our SPCA, local shelter dogs and other rescue groups is wonderful. I highly recommend working with Pirate Radio to any business owner.
